

Adobe Experience Manager (AEM) Consultant

Duties:

Responsible for working with customers in providing consulting services to install, develop, deploy, and maintain Adobe Experience Manager (AEM) solutions including AEM Sites for content management and AEM Forms for business solutions that incorporate form design, data capture, and automated workflows.

Requirements:

- Bachelor's degree in IT related discipline required; minimum 3.5 GPA preferred.
- 2 to 5 years of relevant IT development experience including 2 years of creating content management systems, developing adaptive forms, and converting PDF documents into fillable forms using AEM.
- Strong demonstrated AEM development skills using Agile methodologies to design and implement solutions leveraging reusable libraries.
- Experience with responsive forms and UX design best practices.
- Experience or coursework in the following scripting languages and technologies are highly preferred: Java, JavaScript, HTML, CSS, XML, and web services.
- Experience leading development and test teams demonstrating strong organizational and interpersonal skills.
- Ability to create and maintain design and operations documentation.
- Willingness to expand development skills to support additional products and solutions as needed.
- Equivalent amount of education, experience and/or training will be considered.
