

ServiceNow Consultant

Duties:

Responsible for working with customers in providing consulting services to install, configure and integrate ServiceNow IT service management solutions. Will participate in implementation project activities including daily standups, planning sessions, configuration and deployment, and transition support.

Requirements:

- Bachelor's degree (B.A.) in an IT related discipline required; minimum 3.5 GPA preferred.
- 3-5 years of relevant IT development experience including 3 years of implementing and administering ServiceNow solutions in a consultative role.
- Strong understanding of IT Service Management processes and deployments.
- Experience or coursework in the following areas are highly preferred: JavaScript, XML, JSON, HTML, and CSS.
- Experience leading development and test teams demonstrating strong organizational and interpersonal skills.
- Ability to create and maintain design and operations documentation.
- Equivalent amount of education, experience and/or training will be considered.

Preferred:

- Proficiency in ServiceNow administration, upgrades, integration, ongoing development within the platform, and problem identification, diagnosis, and resolution.
- ServiceNow and ITIL Foundations certification.
